PROFESSIONAL SUMMARY

Full Stack Developer with 3.5+ years of experience in the software industry, designing and delivering scalable web and desktop applications for healthcare, power-utility, and government domains.

Specialized in Java, Spring Boot, React/Next.js, and C#/.NET, with strong PostgreSQL and Oracle performance tuning and a proven record of building secure transaction modules, SCADA/DMS data-management tools, and responsive web UIs. Strong foundation in REST API design, Spring Security-based authentication, and Agile delivery.

KEY SKILLS

Backend

Java, Spring Boot, Spring Security, Spring Data JPA, C#, .NET 10, Python

Frontend

React, Next.js, Angular, WinUI 3, JavaScript, TypeScript

Databases

PostgreSQL, Oracle

DevOps & Tools

Docker, Git, GitHub, SVN, SQL Developer, MSIX, JIRA

Web & API

RESTful APIs, JSON, Payment Gateway Integration, OTP Authentication

Testing & Practices

xUnit, MVVM, Agile

PROFESSIONAL EXPERIENCE

Gnapi Technologies – Software Engineer

Projects: *Oaktree (Healthcare Platform)*, *PowerConnect (Utility Data Management)*

Aug 2025 – Present | Bengaluru

- Develop full stack features for Oaktree, a healthcare platform, using React and Next.js.
- Build RESTful APIs and interactive React UIs that improve data accessibility for end users.
- Built PowerConnect, a C#/.NET 10 desktop application that power-utility engineers use to manage SCADA and DMS data in Oracle.
- Optimize PostgreSQL and Oracle queries and backend logic for faster response times.
- Manage code through Git/GitHub pull-request reviews.

Key Projects

- **PowerConnect (C#, .NET 10, WinUI 3, MVVM, Oracle, Serilog, xUnit, MSIX):** Built a Windows desktop tool for power-utility engineers to manage SCADA (MDB) and DMS data, delivering a SCADA table browser, a bulk Replace Tool, an output editor, and an XRef editor with a trainable ML matching engine that links SCADA records to DMS devices.

ICT Infracon LLP – Associate Software Engineer

Projects: *Excise e-Services*, *SATS (Tracking System)*

Apr 2023 – Jul 2025 | Bengaluru

- Designed and developed Excise e-Services applications using Spring Boot, Angular, and Oracle DB, delivering end-to-end digital workflows.
- Implemented Spring Security for authentication and authorization, and Spring Data JPA for data persistence.
- Optimized database queries and operations, improving backend performance and reliability.

Key Projects

- **Excise e-Services (Spring Boot, Angular, Oracle):** Built the payment integration module for secure online transactions and designed the OTP service module for user verification.

EDUCATION

Bachelor of Science (Computer Science) – PVKN Govt College (A), Chittoor | 2022 | 90%

CERTIFICATIONS

- | | |
|--|---|
| • Java Full Stack Development – JSpiders | • PCEP – Certified Entry-Level Python Programmer |
| • AWS Certified AI Practitioner | • JSA – Certified Associate JavaScript Programmer |
| • PCAP – Certified Associate Python Programmer | • JSE – Certified Entry-Level JavaScript Programmer |
